**Cars with attitude!**

The unique Cars 4 Kids range of battery-driven electric cars will make its debut in South Africa at the Baby Expo in Durban. And these cars are as close to the real McCoy as can be. Replicating their life-size parents in exquisite detail the Cars 4 Kids range in-

cludes Mercedes, Porsche, BMW, Ferrari, Lamborghini and Formula One cars among others. Each is built to exacting European safety standards from single sheets of vacuum-moulded, high-impact polyethylene. Many of the moulds used to produce the toy versions have been cre-

ated by the original car manufacturers, hence their uncanny likeness to the full-scale models.

■ **The cars are either pedal- or battery-driven (batteries are rechargeable), with a 6V or 12V electric motor depending on the model.**
